

## EXPLANATORY

Under the provisions of Chapter 1101, Section 1, of the General Laws, passed at the January Session, 1903, no option is given as to the time or method in which the school tax shall be assessed. The law reads: "And at the *next annual assessment* of taxes thereafter a *tax shall be levied* upon the whole town," etc.

It will be noticed that the school tax is so apportioned as to raise exactly the sum of \$161,379, the total value of the school property in Warwick as found by the appraisers, and that the rebate amounts to exactly the same sum.

Thus the town collects from each taxpayer, in the form of a school tax, his share of the value of all the school property in the town; and pays to each taxpayer, in the form of a rebate, his share of the value of the school property in the district where he lives.

## Report of the High School Commission

*To the Taxpayers of the Town of Warwick.*

GENTLEMEN:—The High School Commission respectfully submits the following report of progress made in connection with the construction of the new high school building.

Through the generosity of Mr. Robert Knight who gives the Town a most attractive site at Westcott for the building, the taxpayers are relieved of the expense of purchasing land for this purpose.

After advertising for proposals the contract was awarded for \$40,026 to the lowest bidder, Mr. Elmer K. Watson, of Warren, this State.

After visiting many of the most recent examples of high schools of the same approximate cost, we feel that the good features of all have been incorporated in the present arrangement, while bad features have been eliminated.

The building will have six regular class rooms, physical and chemical laboratories, a business department of ample size for instruction in Bookkeeping, Stenography and Typewriting, an assembly hall with seating capacity of four hundred, teachers' rooms, principal's office, library, locker rooms, photographic dark room, and space for gymnasium and manual training departments.

We feel that at the prevailing prices of material and labor that we are securing a building of greater capacity for the money expended than could have been expected at the outset judging by the comparative costs of similar structures previously visited.

The arrangement has the approval of the School Committee and of the Superintendent of Schools.

The contract does not include heating and plumbing; these items your Commission believes, will be provided for by the balance of the appropriation already made.

It does not seem possible, however, to provide within the present appropriation, or the cost of the retaining walls, steps, approaches, grading and fencing and the Commission is forced to ask for an appropriation of \$11,000 or so much thereof as may be necessary to cover the cost of these items.

If the taxpayers desire the Commission to furnish the building, it is respectfully suggested that an appropriation be made of the amount of \$6,000, or so much thereof as may be necessary.

Respectfully submitted,

CHAS. R. BRAYTON,  
ROBERT B. TREAT,  
ALBERT F. HILL,

*Commissioners.*

Warwick, R. I., Nov. 15, 1904.
